

**A warm welcome to all
parents and guardians of pupils at
Godalen videregående skole^{*}
starting the school year 2017-2018**

Here at Godalen vgs., we believe it is important that our pupils enjoy a safe and productive learning environment.

To achieve this successfully, we rely on a good working relationship with you, our pupils' parents and guardians.

For us, it is most important that:

- Our pupils attend school according to their timetables.
- They play an active part in the classroom.
- They bring all the equipment they need to school.

^{*} Godalen Vocational College / Godalen Upper Secondary School

You can assist us by:

- Helping your son or daughter to attend school, and being strict when it comes to approving absence.
- Encouraging him or her to get enough sleep so that he or she is in a fit state to attend school.
- Notifying the school in the case of absence, or encouraging your son or daughter to do so themselves.

Info

Information, including the rules concerning absence and the school calendar, can be found on our website at www.godalen.vgs.no.

Missing school has three important consequences:

- a) Falling behind in learning and a risk of not achieving a grade.
- b) A risk of losing the entitlement to pass to the next stage of the pupil's education.
- c) As a job seeker, a pupil with a poor attendance record will go to the back of the queue.

Info

Class teachers are responsible for the class environment, for checking that pupils are enjoying class, and for contact with the parents and guardians.

Every month, the class teacher will send information to parents and guardians concerning the pupil's absences.

Contact us:

Godalen videregående skole

Østre Ring 55
4015 Stavanger

Tel. +47 51 84 69 00

E-mail:
godalen-vgs@skole.rogfk.no

www.godalen.vgs.no

You can also assist us by:

- Helping us to make sure that the equipment your son or daughter needs in class is in good order. This includes a PC, writing materials, a calculator, books, PE kit and equipment required for vocational subjects.
- Talking with your son or daughter about their well-being and what they are learning at school.
- You know your son or daughter best, and our aim is to work together with you. This is how we achieve the best possible schooling for our pupils.

Laptops can be equipped with either Windows or

Mac. We recommend Windows.

A pupil can use the PC that he or she already has. You will find more information at

www.godalen.vgs.no

Please don't hesitate to contact one of the heads of department if you want to talk to us, or if you have any input:

Building and construction [BA]

We provide our pupils with "Learning today for tomorrow's world! "

Our teaching is based on the following values:

We show respect | We are willing to learn | We have a positive attitude
